New Sever!

ajay_bhargav, Mon May 08 2006, 02:13 pm

hey group 16 members,
New webserver (not a dedicated one) established for the Home Automation Server. you can visit the secure server at
http://rickeyworld.selfip.com
this server is established on:
AMD Athlon Â 3000+
512MB RAM
80GB Â SATA HDD
lol thats my own PC. yes i made my own PC as server ;-) isnt that cool?
well if you're luck, i mean if the server is online, just go to the link above.
or any group 16 member can call me up and ask me to start the server.
take care friends, i'll give you all the updates.

so KEEP VISITING!
